2. Click *Register*. Fill in the account setup form and click *Register*.

## Using RBdigital on your Tablet or Smartphone

Note: If you already have the OneClickdigital app installed, simply update the app in your app store. This will replace the OneClick app with the new RBdigital app. Sign in with the same login information you used for OneClick.

1. Follow the Initial Setup instructions above.
2. Download the RBdigital app from the app store on your device. (The new app is still called OneClickdigital in some app stores.)
3. Open the app. Choose *Canada* as your country.
4. Input the username or email associated with your RBdigital account.
5. Input your RBdigital password. (Note: This is not the pin number associated with your library card. This is the password you created for your RBdigital account during the Initial Setup process.) Tap *Next*.
6. To find a title, click the + icon or *Explore*. You can also search by clicking the magnifying glass in the top right corner. Select *Audiobooks*, then enter your search terms.
7. To find out more information, tap the cover. Select your checkout period. Tap *Checkout*.
8. Tap *Play* to begin listening. This will also automatically begin downloading the book.
9. To see download progress, tap the hamburger menu in the top left corner (three lines). Then tap *Checked Out*. Below the title you will see a ratio – this indicates how many chapters of the total chapters have finished downloading. Ensure you have downloaded the full book before disconnecting from Wifi. You can begin listening to your audiobook while it downloads.
